   - #37 Understanding Young Student Behavior in the Classroom: Self-Paced
   - Credit, Recommend, Views 1260
   - This module is for preschool through grade 5 teachers. The module will serve as a tool to assist teachers in developing an enhanced awareness of behavioral health issues in young students. The module will extend that knowledge to foster long-term connectivity and academic achievement for all students, decrease the dropout rates; and ultimately, increase North Carolina’s graduation rates.
